MEMO

RE: Release of Version 8 of N2 Standard Operating Procedures

As a member of the Network of Networks (N2), the University has access to a complete set of standard operating procedures (SOPs). The 2019 N2 version 8 SOPs, effective as of May 15, 2019, are now available on the Quality Assurance for Clinical Trials [webpage](#).

The N2 SOP Committee reviews and updates the SOPs bi-annually. If your team does not have a set of up to date SOPs, we recommend your team adopt the N2 version 8 SOPs. If your team chooses to adopt them, you are responsible for documenting the training of yourself and your research team prior to implementation.

If you have additional questions, please contact me at linda.longpre@ucalgary.ca or 403-220-6470.

Thank you,

Linda Longpré, CCRP
