

Quick Reference Guide

Purpose:

After a Pre-award record is created and the status is changed by the PI to <u>Submitted for Approvals</u>, the Academic Approver's section is populated. Rules for approvals including the sequence in which they occur, are based on audit, university, and faculty policies. These policies are built-into RMS's approval workflow.

RMS does provide some flexibility for those with permissions to amend the sequence. Research Facilitators and ADRs can re-sequence approvers that have not yet approved a Pre-award record with any of the following statuses:

- In Preparation
- Submitted for Approvals
- Pending PI Information

Grants Assistant and Grants Officer can re-sequence <u>approvers that have not yet approved</u> a Pre-award record with any of the following statuses:

- In Preparation
- Submitted for Approvals
- Pending PI Information
- For Intake by Research Services
- For Review by Research Services
