

## PARTICIPATE IN RESEARCH (PIR)

**Participate in Research** is a **public-facing** website to feature research studies that are actively recruiting human participants. The website allows the general public and the campus community to browse and search current studies through a user-friendly interface.

The screenshot shows the website's navigation bar with links: RESEARCH AT UCALGARY, RESEARCHERS, POSTDOC, STUDENTS, PARTICIPATE (highlighted), COMMUNITY, and CONTACT US. The main content area is titled "Participate in Research at UCalgary" and includes a sub-header "We conduct research that changes the world." followed by a paragraph about UCalgary's research focus and a link "Learn more about participating >". A sidebar titled "For Researchers" contains text about the initiative and a link "Learn how to include your study >". Below this is a search section titled "Find a Study or Trial" with a search input field, a "Show search options" dropdown, and "Reset" and "Search" buttons.

We invite researchers to opt-in to have their study included on the website by completing SmartForm, **External Website**, through [IRISS](#) (online ethics application).

### CRITERIA

In order to post a study on [Participate in Research](#) website:

- Applications must be reviewed by the **CHREB, CFREB or HREBA.CC**.
- The SmartForm - **External Website** is only shown when **YES** is selected on SmartForm, **Participant Information Q4**:

4.0 \* Will members of the research team be interacting with, or contacting participants, in person or electronically?

Yes  No

**Yes** examples include: interventional studies, communication with participants, including web-based interaction, survey/questionnaire administration, qualitative studies, etc.

**No** examples include: secondary data analysis including health records review, database linkage, archival research, etc.

- To participate, Study team must select **YES** on SmartForm - **External Website Q1:**

**External Website**

As part of the University of Calgary's Strategic Research Plan, we have developed a public-facing website to feature research studies that are actively recruiting human participants. The website will allow the general public and the campus community to browse and search current studies through a user-friendly interface. View the website here: <http://www.ucalgary.ca/research/participate/>

The purpose of this SmartForm is to gather enough information so participants can search and sort studies. In addition to the information collected below, Ethics ID, name of Principal Investigator, Long Study Title and whether or not this is a clinical trial will be released.

The data is released to populate the external website when the ethics application or modification is approved, or when 'Edit Participate in Research External Post' is executed. Changes are reflected the following day.

(\* indicates a required field)

1.0 \* This study is eligible for posting on the University of Calgary **Participate in Research** website, do you wish to participate?

Yes  
 No  
[Clear](#)

How data is transferred to [Participate in Research](#) website:

### NEW ETHICS APPLICATION

- Complete SmartForm- **External Website** as part of ethics application, followed by submission.
- Upon approval, data is transferred to Participate in Research website the next day.
- Content can be changed anytime through a modification or **Edit Participate in Research External Post** activity button on Study Workspace.

### APPROVED ETHICS APPLICATION

- External Website page can be edited either ways:  
i) via a **modification** OR (ii) by executing activity **Edit participate in Research External Post.**
- Complete or modify the SmartForm – **External Website.**
- Data is transferred to **Participate in Research** website the following day.

The screenshot shows a web interface for a researcher's profile. The top navigation bar includes 'My Home', 'Researcher Profile', and 'Help'. The main content area is titled 'Current State' and shows details for 'REB Certification File: Test Study 2 (REB18-1739)'. The 'My Activities' sidebar on the left contains several actions, with 'Edit Participate in Research External Post' highlighted by an orange circle and an orange arrow pointing to it. The main content area also displays a table of activities with columns for 'Activity', 'Author', and 'Activity Date'.
