

New Investigator Research Grant Program

Letter of Intent Requirements

Letters of Intent are generally 2–3 pages. Please address the following questions:

1. Statement of Need

- What important issue are you proposing to address? Provide a brief introduction to your topic.
- Why is your proposed work significant for the field and to patients with leukemia?
- How will your proposed research advance the field?
- How is your proposed research unique and innovative?

2. Project Activity and Outcomes

- List the specific aims.
- What are the methods you will use to accomplish your aims?
- Present a timeline of activities (tables or charts work best here).
- If your research goes as expected, what are the deliverables/outcomes?
