

PARTICIPATE IN RESEARCH (PIR) WEBSITE POSTING

USE THIS GUIDE FOR:

Submitting and modifying a PIR study posting

USE THIS GUIDE IF YOU ARE A:

PI or Coordinator

SUMMARY:

Participate in Research is a public-facing website to feature research studies that are actively recruiting human participants.

The website allows the general public and the campus community to browse and search current studies through a user-friendly interface.

Submission of a study and modifications are done through IRISS in conjunction with the ethics application.

>> research.ucalgary/participate

Participate in Research is an initiative led by the Office of the Vice-President (Research) to support researchers to recruit human participants.

To see your study or trial published here, simply opt in during your ethics application in **IRISS**. Study information is pulled directly from IRISS and displayed on the Participate in Research website, allowing visitors to search and filter studies based on their interests.

If your study's contact information includes an email address, **visitors will be able to contact your study team directly** via a webform included on the website.

SUBMIT A STUDY TO POST

We invite researchers to opt-in to have their study included on external websites by completing the External Website section questions – available within the REB SmartForm application through IRISS (online ethics application).

CRITERIA

In order to post a study on an external website:

- Applications must be reviewed by the CHREB, CFREB or HREBA.CC.
- The External Website section is only available when **YES** is selected within Q4 of the Participant Information section in the ethics application:

■Participant Information, Recruitment, and Informed	4.0	* Will members of the research team be interacting with, or contacting participants, in person or electronically? Yes O No Clear
Consent		Yes examples include: interventional studies, communication with participants, including web-based interaction, survey/questionn
Participant Information		administration, qualitative studies, etc.
		No examples include: secondary data analysis including health records review, database linkage, archival research, etc.

2023-12-19

VRISS

Once the External Website section is become available, you must also indicate YES in Q1.

This will trigger the SmartForm to collect information you want available to the public once the ethics has been approved.

The information entered will be transferred (as entered) to the external website when the ethics application/modification is approved.

▼Participant Information,	External Website			
Consent Participant Information	As part of the University of Calgary's Strategic Research Plan, a public-facing website has been developed to feature research studies that are actively recruiting human participants. The website will allow the general public and the campus community to browse and search current studies through a user-friendly interface. View the website here: http://www.ucalgary.ca/research/participate/ and https://bethecure.ca/ (Be The Cure will post studies approved by CHREB or HREBA)			
External Website	The purpose of this SmartForm is to gather enough information so participants can search and sort studies. In addition to the information collected below, Ethics ID, name of Principal Investigator, Long Study Title and whether or not this is a clinical trial will be released.			
Recruit Potential Participants	The data entered below will populate the external website when the ethics application or modification is approved, or when 'Edit Participate in Research External Post' is executed. Changes are reflected the following day.			
Informed Consent Determination	(* indicates a required field)			
	 * Do you wish to have your study included on the University of Calgary Participate in Research and Be The Cure (studies approved by CHREB, HREBA only) website? Yes No Clear 			

- IMPORTANT -

Data is transferred AS ENTERED and approved, to the external websites. Ethics review <u>does not</u> include grammar or content corrections.

HOW CAN I UPDATE/MODIFY MY PUBLIC POST INFORMATION?

APPLICATIONS WAITING FOR APPROVAL

- While your ethics application is waiting to be approved, you can modify the information using the "Edit Study" button in the side menu of your main study workspace.
- Data will be public 1 day following ethics approval.

APPROVED APPLICATIONS

.

- Use the "Edit participate in Research External Post" quick link under My Activities.
 - Complete or modify the SmartForm External Website section
- Data is transferred to the external website the following day.
- Post information can also be made through a request for modification.

HOW DO I REMOVE MY POSTED STUDY FROM EXTERNAL WEBSITES?

FOR POSTINGS NOT YET APPROVED/LIVE

• Use the **Edit Study** button and select **NO** in Q1 or the External Website section.

FOR POSTINGS CURRENTLY LIVE

• Use the "Edit Participate Research External Post" quick link and select NO in Q1 of the External Website section.
