

# ALBERTA AMR SUMMIT KEYNOTE

## THE LION IN THE GRASS: ANTIMICROBIAL RESISTANCE,

## The Crisis and the Opportunity

Join us as Christopher shares his views on the looming AMR pandemic, the lack of adequate support available to battle superbugs, and how this has created enormous opportunity for the “little guys to play in the space”. Hear the “Fedora Story”, on how Chris and his team took the deal over the finish line and how they are positioning themselves to do it again.

If you are at all involved in AMR research and development, or even interested in learning more about it, you definitely do not want to miss this presentation.

## CHRISTOPHER MICETICH

Christopher G. Micetich is a successful serial entrepreneur who has spent over 36 years in anti-infective drug discovery. Among his many accomplishments, Christopher, Founder, President & CEO of Fedora Pharmaceuticals Inc., negotiated the closing of the largest licensing deal in Canadian biotech history in 2014.
