Fellowship Overview

Program Details: Full-time, 3-month paid fellowship (June - August) with virtual and in-person components.

Eligibility: Open to creative, self-starting PhD candidates, Post-docs, and MD/MD-PhD students in life sciences, bioinformatics, or AI/ML.

Apply by January 31, 2025: Visit amplitudevc.com/en/fellowship for details.

Activities

Collaborate with diverse, multidisciplinary scientific teams.

Engage in dynamic, daily strategy sessions with Pre-Amp team members.

Pitch innovative company concepts & sharpen your entrepreneurial skills.

Present your ideas to expert panels & receive valuable feedback.

Immerse yourself in venture capital & life sciences entrepreneurship.

Fellows' Testimonials

"A formative summer of exploring exciting science and career paths with a dedicated, approachable and close-knit team."

"The fellowship teaches you to prioritize the value of an idea before the impossibility and think, not just about the science, but about the "so what" and "what if" that goes with the science. You learn to shift your mindset to think bigger, work faster, and adapt more; something I think will help you in the future regardless of the specific career path you take."

"A fantastic way to get a real flavor for the different problem spaces and approaches necessary in early therapy innovation. Find out in 3 months what stimulates you about innovation and company creation."
