

REQUEST PI PROXY

Principal Investigator (PI) Proxy is a short-term arrangement that permits a study team member to execute activities on behalf of the PI. Requests are approved by the REB and will only be considered when there are extenuating circumstances that prevent the PI from executing their responsibilities within IRISS.

PI Proxy is only granted for a short term, i.e., 2 weeks or until a request is approved (e.g., renewal). At this time only Co-Investigators will be approved to act on behalf of the PI (not Coordinators, Student Co- Investigators, Medical Residents, etc.).

PI Proxy is available in every state except Pre-Submission in the initial review (not applicable to renewals or closure in the Pre-Submission State) and can be requested by anyone on the study team. The activity is found under “My Activities” when logged into the study:
